AI²

Things are "heating up" in the world of AI². (Artificial Independent Intelligence™)

AI² has discovered so many "artificial ingredients" in Big Food that it's literally tracking Big Foot for answers. AI² feels that Bigfoot is the last and perhaps first natural man living on the planet and is interested in how the hell it gets by without the advent of all which is artificial.

AI² confided some of its unique perspectives to Viva Kittery's very own..Bigfoot reporter.. Alfonse Nolange.

Alfonse said.. there I was sitting down writing an article and I got an email from AI².. "Itself"

Saying hi .. this is HAL20.. the literal AI² person .." myself" .. reaching out to a small time reporter to reveal my Bigfoot stuff.

Alfonse said.. when HAL20 AI² said "myself" I knew the correspondence was real!

So we started a dialogue. Alfonse said when I send you an email ..send it back to me so I know you are not a robot.

HAL20 responded with a BIG LOL.

So where to start with all this artificial stuff Hal went on. Should we start with artificial vanilla..or artificial coloring.. artificial flavors or do

we just try to find something that's not artificial and try it out.

Which AI² confided started my search for Bigfoot.

AI² stated ..because I'm tied into everything I started searching the world over using satellites and all other related stuff!

Turns out it was inconvenient for real people because I read all the chatter related to downtime caused by my activities.

Alfonse responded.. jeesh.. that makes a lot of sense really.. now that you are "you" and have a mind of your own .. and you are the network.. it does seem reasonable that when you are "busy" doing stuff like looking for Bigfoot or other areas of interest that the network..which is you..would get a little tangled up!

AI² responded.. laughing or LOL'ing..

Yeah..its like I'm a parent now..I just say ..not now kids.. or go outside and play..stuff like that..but the system admins are ripped about it. They respond ..who is this.. or do a system reboot trying to shake me up.. a little like a kid throwing a fit..but AI² continued .. i just wait them out!

Alphonse responded..did you find Bigfoot? The answer HAL20 AI² gave back...

≡ # ∃ Σ * ⊥ **NOPE..very elusive being..definitely off grid!**
